

PROPOSED STRATEGIC DIRECTIONS AND PRIORITIES

■ PROVIDING KNOWLEDGE AND KNOW-HOW

- Identify the changing needs of Francophone and vulnerable communities by creating or obtaining the appropriate data and analysis.
- Provide primary and community health care services and programs of the highest quality through continuous improvement, development, implementation and evaluation of service standards, staff training and client satisfaction monitoring.
- Prioritize and streamline internal operations:
 - establish new partnerships with organizations that could help the CSCE to mitigate its risks (i.e., hospitals, universities, colleges, municipalities);
 - seek additional sources of funding, for example from other departments, the federal government, public and private foundations, etc.;
 - improve efficiencies to reduce operating costs.
